CERTIFICATES

ASIACELL - Internship

2024

Networking & System Management

- I did an internship at ASIACELL in the Networking and System Management department. I learned how to set up and take care of computer networks and systems. The team was very helpful and friendly, and I learned a lot from them. It was a great experience that helped me improve my skills and understand real work in IT.

College of Science - Volunteer

2022 - 2023 - 2024 - 2025

Event Coordinator

- Volunteered at the annual college festival, contributing to the successful organization and execution of various events. Assisted in event planning, coordination, and management, ensuring smooth operations and a positive experience for attendees. Developed teamwork, communication, and problem-solving skills while working with a diverse group of peers and faculty.

Networking Course

2022

- Completed a specialized course in networking (CCNA), focusing on network design, implementation, and management. Gained expertise in configuring and troubleshooting network devices, understanding network protocols. Acquired practical skills in setting up and managing LANs, WANs, and wireless networks.

Cyber Shield Course

2021

- Completed a comprehensive cybersecurity course focusing on threat analysis, ethical hacking, incident response, and regulatory compliance.
