CERTIFICATIONS

CompTIA IT Fundamentals

ICT Taskforce

- CompTIA IT Fundamentals (ITF+) is an introduction to basic IT knowledge and skills that helps professionals decide if a career in IT is right for them. It also helps organizations prepare non-technical teams for digital transformation.

Essential of Digital Marketing

Google

- It is a course offered by Google's Skills Program to learn the basics of digital marketing. This course includes 26 educational units with 40 hours of training prepared by Google certified trainers and includes a set of practical exercises and realistic models that help to gain more knowledge and translate it into reality.

Effective Communication Skills Training Program

Skyline Training Institute.

- The program covered methods of communication and how to utilize the best practices in communication in order to achieve organizational objectives. It also presented the importance of body language and how it can affect the way we present information to others.

CURRENT PROJECTS

A computer trainer at Tech Academy and Kingdom Land Training Company.

- As a computer trainer at Technology Academy and Kingdom Land Training Company, I have gained valuable experience in the field of technology education. In this role, I was responsible for delivering training courses to individuals interested in expanding their computer skills and knowledge.

3D room at BOC in Majnoon

- Supervised and executed Major Part in 3D Visualization Room Project, Coordination between different suppliers & Teams, in addition to providing Technical Support.

Data center at BOC in Burjesea

- Took responsibility for supervising and implementing a significant portion of the data center project, overseeing the installation and configuration of hardware components. Additionally, I provided comprehensive hardware support, troubleshooting issues, and ensured optimal performance.

RE: KEBL - Ingestion Process Knowledge Sharing

- Mainly involved with a team from Kuala Lumpur to work on data for Kuwait Energy Basra Limited (KEBL) by performance insights & Delfi.

Entrepreneurship Project

- Throughout my project, I had the privilege to immerse myself in various aspects of IT. Engaging in a range of IT activities and tasks, I acquired invaluable hands-on experience and knowledge. The duration of my project spanned four months, during which I focused on the electronic archiving of incoming and outgoing documents. This experience allowed me to develop expertise in managing and organizing digital document systems.
