ABOUT ME

I am Mustafa Kamal, a computer engineer from Al-Nusour University, holding several courses, the most prominent of which are CCNA, CCNP, Microsoft Office, MicroTik, and Network Plus. I have experience in network and router management, network design and implementation, and ensuring their security. I possess strong skills in routing protocols, network switching, and communication protocols. I am committed to providing effective and secure network solutions, and I am always seeking new challenges to enhance my skills and improve my performance

SKILLS

- Effective communication
- Teamwork
- Ability to learn independently
- Network and router management –
- Network design and implementation –
- Network security –
- MicroTik (RouterOS, WinBox) –
- Time management and task organization
- Working under pressure
