Ready to Handle New Missions

SUMMARY

Experienced logistics and freight forwarding professional with over 10 years in the industry. Proven expertise in managing complex supply chains, coordinating international shipments, and optimizing logistics operations. Additionally, possess hands-on Health, Safety, and Environmental (HSE) experience in oil field operations, ensuring compliance with industry standards and promoting safe work environments.

EXPERIENCE

Logistics Coordinator

Crescent Petroleum

10/2021 - Present Erbil Branch

- Led a cross-functional supplier to streamline logistical approvals processes, for our KM250 project at Khormor reducing overall supply chain costs by 15% within a 12-month period.
- Optimized inventory levels for tender copies through improved forecasting accuracy, resulting easy access for auditors.
- Managed Tax Exemption Letters and initiated strategic plans with MOF team which enhanced faster approvals availability by 25%.
- Developed robust business models in Excel, simulating various supply scenarios to improve decision-making efficiencies and approvals fast tracking.
- Contributed to a company-wide sustainability initiative focused on enhancing team cohesion and improving the working environment.

Operation & Marketing Supervisor

Aysa Shipping and Logistics

09/2018 - 10/2021 Erbil, Iraq

- Coordinated shipping activities for oil and gas cargos and pharmaceutical products, achieving a 99% on-time delivery record over three years.
- Reduced freight costs by 10% through the negotiation of more favorable terms with logistics providers.
- Managed a team responsible for ensuring compliance with international logistics and shipping regulations.
- Collaborated with company teams to align tender preparing and completion schedules with client's demand, ensuring optimal ITT instruction allocation.
- Managed a 2-year logistics contract for a major oil and gas company.
- Delivered a \$1 million OOG cargo project, achieving project goals. Introduced new tendering techniques and successfully negotiated contract amendments. Supervised craneage for oversized cargo offloading in Zakho.

Independent Contractor then Branch Manager

SAMS - Syrian American Medical Society

10/2017 - 09/2018 Erbil, Iraq

- Registered SAMS in North Iraq and managed startup program activities.
- Conducted surveys and mapping for Syrian refugees in Duhok.
- Conducted competitive analysis leading to strategic adjustments and Collected required data and secured approval for mobile operation rooms.

ACHIEVEMENTS

Team Lead for Sustainability Project

Led a cross-functional supplier to streamline logistical approvals processes, for our KM250 project at Khormor reducing overall supply chain costs by 15% within a 24-month period.

Award for Logistics Excellence

Received an internal accolade for outstanding work in logistics coordination, markedly exceeding on-time delivery targets for two consecutive years.

Negotiation Success

Successfully renegotiated freight contracts, cutting domestic transportation costs by 10%, which directly bolstered the company's bottom line.

Inventory Management Improvement

Implemented a new inventory management system that led to best tracking of the packages and source any specific docs on the shelving the company require for auditing or any other purposes
