🌐 Iraq - Missan - Awwasha

Experienced professional with 13 years of experience at Weatherford Oil & Gas, specializing in managing workshop facilities, overseeing maintenance, and ensuring safety and operational efficiency. Skilled in procurement, inventory management, team coordination, and HSE compliance. Proven track record in optimizing resources, managing budgets, and resolving operational issues to support project success

Experience

Weatherford Oil Tools Middle East – Iraq

Base Manger - Facility Manager

2020 - 2024

- **Facility Maintenance & Operations:** Oversee the maintenance and operation of workshop facilities and equipment, ensuring operational efficiency and minimizing downtime.
- **Safety & Compliance:** Enforce safety protocols and regulations to ensure a safe working environment, conduct safety inspections, and lead emergency response training.
- **Logistics & Resource Management:** Manage inventory, including fuel and consumables, ensuring timely availability of resources to support operations.
- **Team Supervision & Training:** Lead and coordinate teams, ensuring high performance, safety compliance, and providing ongoing training to staff.
- **Budget & Reporting:** Prepare operational budgets, monitor expenses, and generate regular performance and maintenance reports for senior management
- **Problem Solving:** Address and resolve operational issues, equipment failures, or safety incidents promptly to minimize disruptions.
- **Vendor & Contract Management:** Oversee relationships with suppliers and contractors, ensuring timely delivery of resources and services in compliance with agreements.

Trainee Mud Engineer

2018 - 2020

- Worked on drilling rigs using water-based mud to control and adjust mud properties according to the drilling program.
- Developed and implemented mud material plans for upcoming wells, ensuring the appropriate selection and availability of materials
- Monitored and tested mud properties continuously to ensure optimal performance and compliance with operational requirements.
- Collaborated with the drilling team to ensure smooth operations and timely adjustments to the mud system as needed.

Drilling Fluids – Data Engineer

2016 - 2018

- Collaborated with mud engineers on-site to monitor and track daily operations, ensuring all requirements for each section were met.
- Prepared ahead of time for upcoming operations, coordinating necessary resources and adjustments to ensure smooth execution.
- Collected, analyzed, and reported data related to drilling fluids, ensuring optimal fluid performance and operational efficiency.
- Worked closely with the operations team to proactively address any issues or adjustments needed during drilling processes.

Procurement

2013 - 2015

- Managed procurement of materials and tools required for company projects from local suppliers in the Buzurgan and Rumaila oil fields.
- Coordinated with vendors to ensure timely delivery of materials, maintaining cost-effectiveness and quality standards.
- Developed and maintained strong relationships with local suppliers to support operational needs and project requirements.
- Oversaw inventory levels and ensured the availability of necessary materials for uninterrupted project execution.

Drilling Fluids – Data Engineer

2009 - 2015

- Managed comprehensive logistics operations for materials, equipment, and tools, ensuring timely and safe delivery to rig sites.
- Provided support to Rig Store personnel, overseeing material transfers and ensuring early notifications for logistics planning.
- Successfully coordinated operations across key oilfield locations, including Rumaila and Buzurgan, contributing to efficient and precise material handling.

UNHCR Organization - Iraq

Data Entry Assistant

2007 - 2009

- Entered and updated beneficiary data into the database system with accuracy and attention to detail.
- Prepared and submitted daily and weekly reports, ensuring timely and accurate documentation of all relevant data.
- Ensured data integrity and consistency while handling large volumes of information.

Education

Baghdad University

2004

- Bachelor's Degree in Physical Education and Sports Sciences

Imam Jaafar Al-Sadiq University

2023

- Bachelor's Degree in Business Administration

Skills

- Facility Management
- Procurement & Inventory
- Drilling Fluids Management
- Data Entry & Reporting
- Team Leadership
- HSE Compliance
- Problem Solving
- Vendor Relations
- Budgeting & Cost Control
- Communication & Collaboration

Certifications & Trainings

- Managing Safety from IOSH from Gulf Technical & Safety Training Centre LLC.
- General Facility Maintenance From Privilege Training Company.
- Firefighting Pump Station From Privilege Training Company.
- JDE 9.1 Equipment Maintenance - Preventative Maintenance From Weatherford
- Explosives Awareness From Weatherford.
- Weatherford Internal Auditor Training From Weatherford.
- Facility Safety Orientation from Weatherford.
- Basic Explosives Safety CBT From Weatherford.
- Radiation Awareness From Weatherford.
- Oilwell Drilling 1 - Introduction to Rig Types and Basic Drill String Components From Weatherford.
- Oilwell Drilling 2 - Basic Blowout Prevention Equipment Components From Weatherford.
- Oilwell Drilling 3 - Introduction To Drilling Fluids From Weatherford.
- Oilwell Drilling 5 - Hoisting Equipment From Weatherford.
